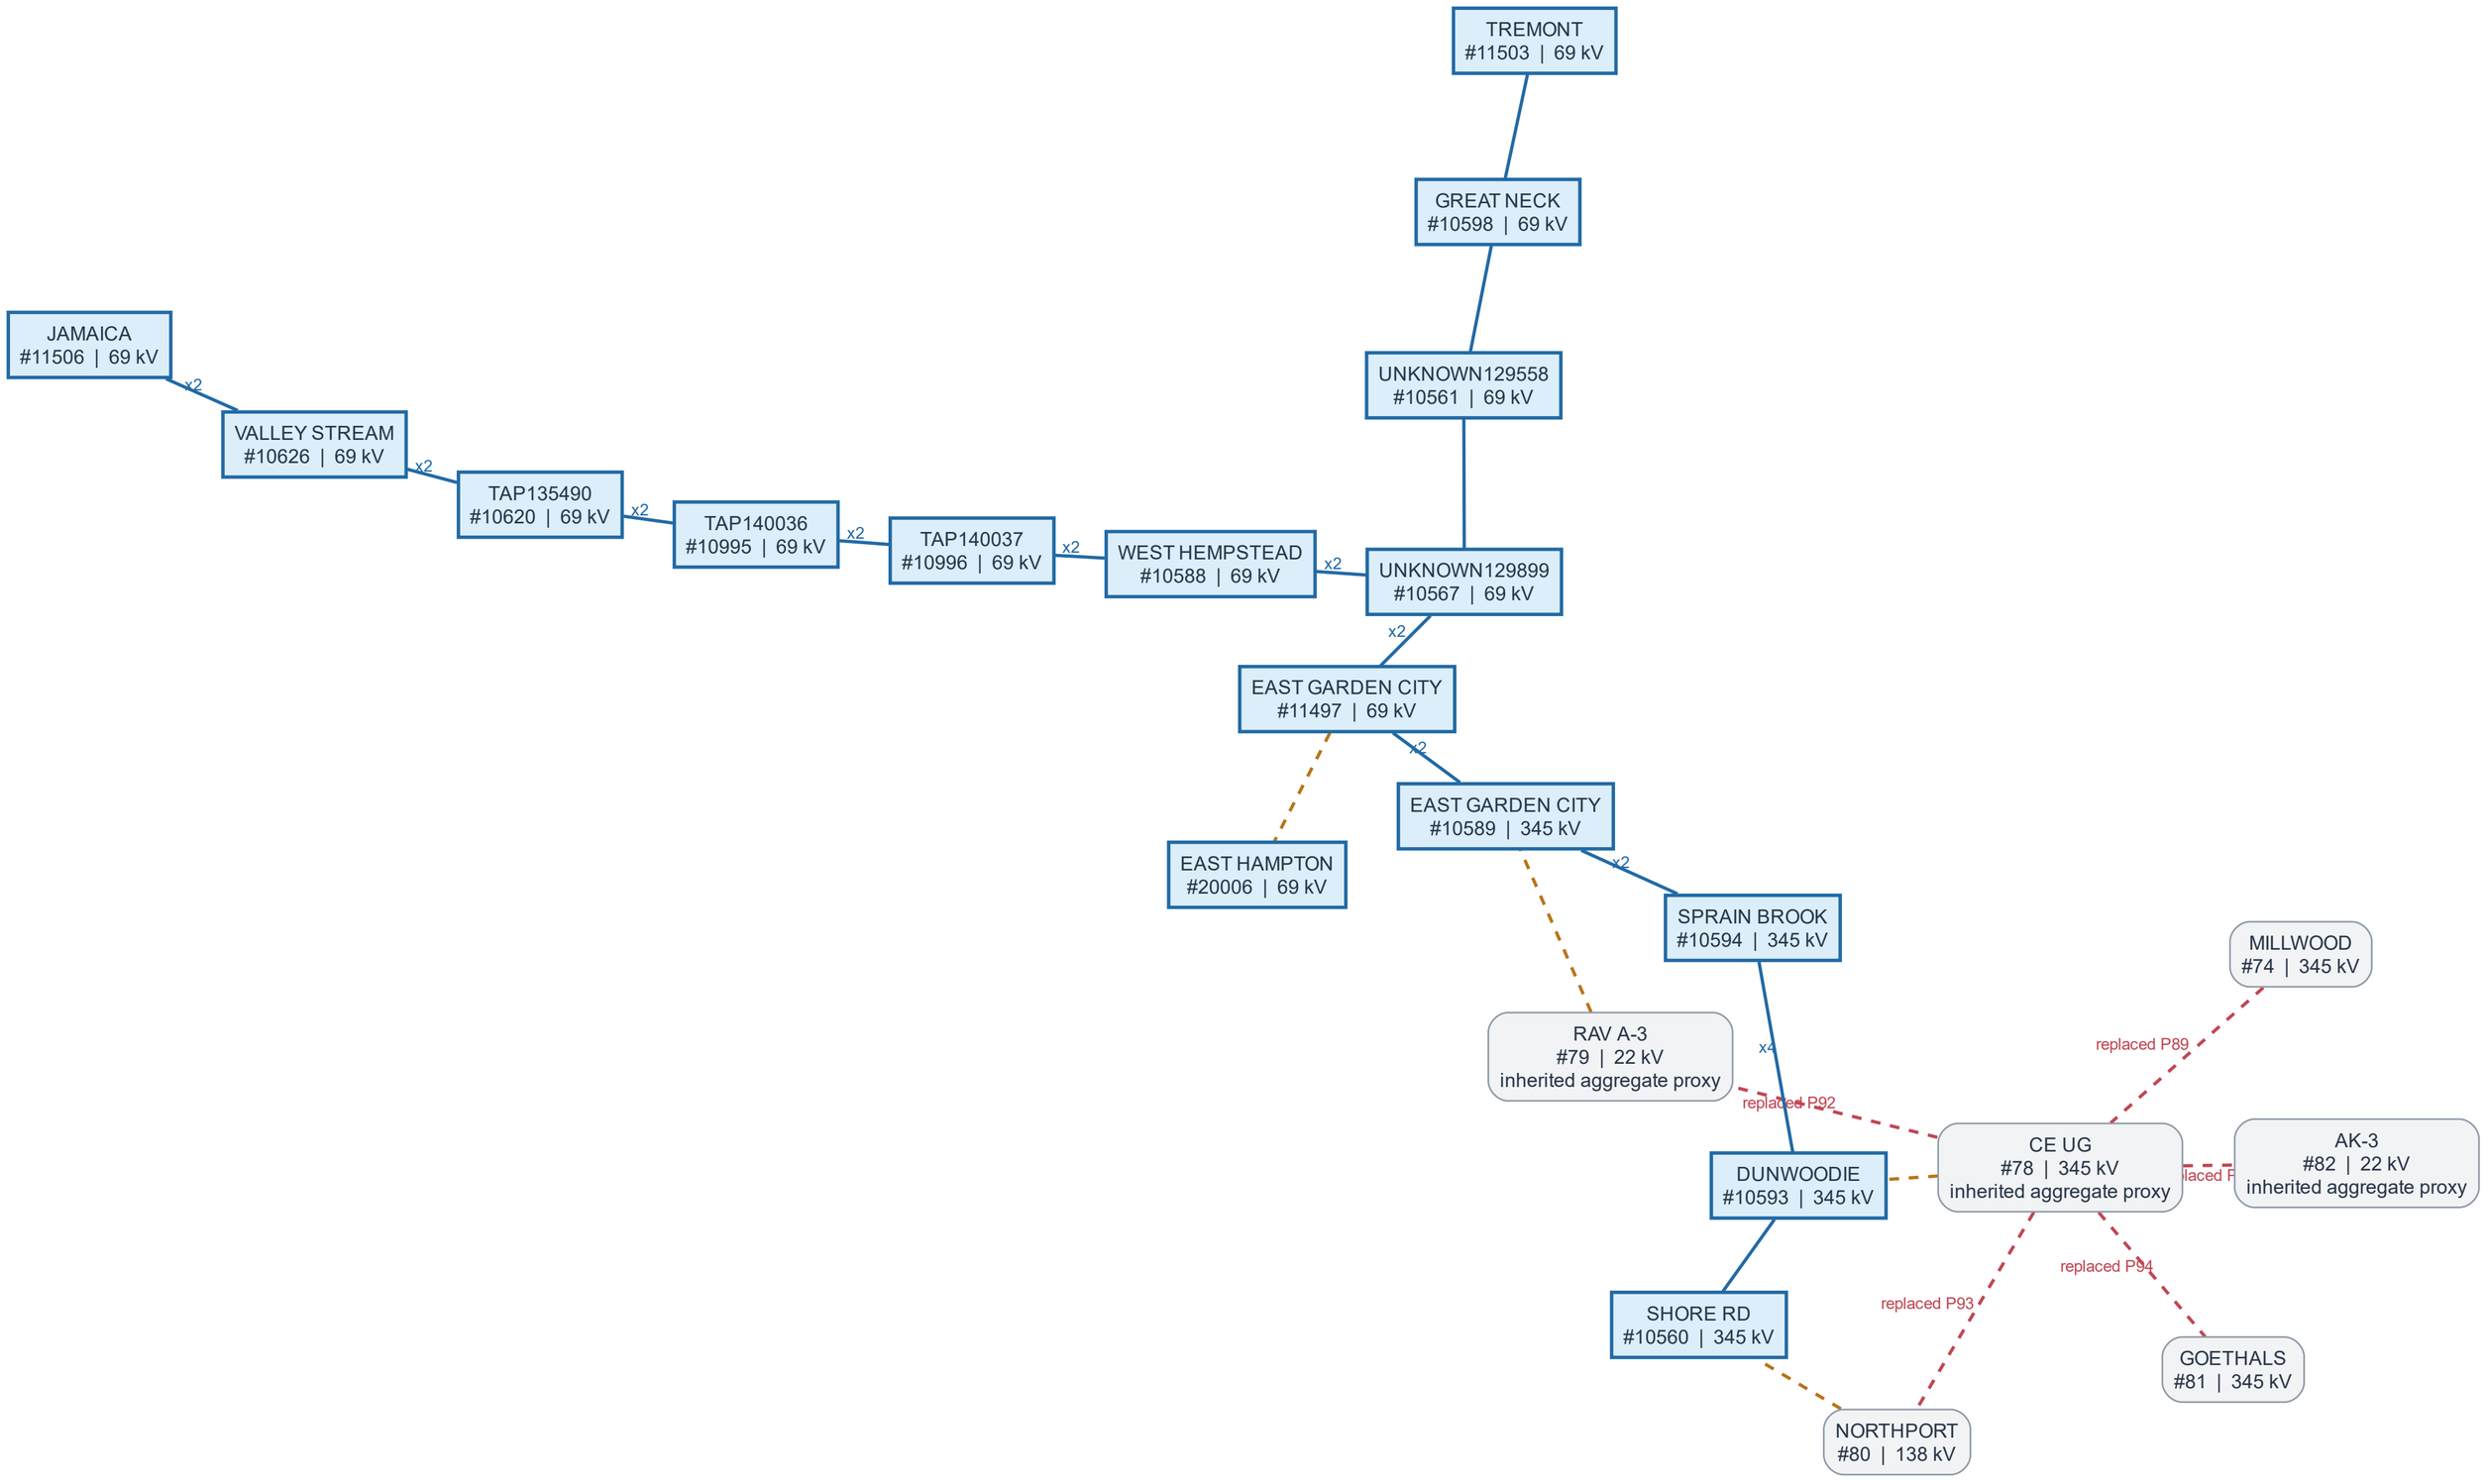
# Long Island detail and its neighboring connections

16 added buses / 22 shown | K backbone, J-K ties and East Hampton terminal

Blue square boxes: ADDED buses; gray rounded boxes: ORIGINAL buses. Labels = name / model ID / nominal kV.

Blue lines: added historical source circuits | Gold dashed: added assumed connections

Red dashed: replaced original branches (inactive) | Purple: unchanged DC equivalents | Gray: retained; gray dotted: idle scaffold


xN = parallel branch count. Schematic, not geographic. Cross-voltage proxies are not certified physical transformers.
