Re: *Case 21-T-0340 - Application of New York Power Authority and Niagara Mohawk Power Corporation d/b/a National Grid for a Certificate of Environmental Compatibility and Public Need for the Rebuild of Approximately 100 Linear Miles of Existing 230 kV to Either 230 kV or 345 kV along with Associated Substation Upgrades Along the Existing NYPA Moses-Willis 1 &2, Willis-Patnode, Willis-Ryan, and National Grid's Adirondack-Porter 11, 12 and 13 Lines in Clinton, Franklin, St. Lawrence, Lewis, and Oneida Counties, New York; Notification of energization*

Dear Secretary Phillips:

On August 11, 2022, the New York State Public Service Commission issued an Order Granting Certificate of Environmental Compatibility and Public Need ("Certificate") in the above reference proceeding, approving the Smart Path Connect Project. Condition 42 of the Certificate (contained in Appendix D to the Joint Proposal) requires that "within ten (10) days after each line of the Project is in service, the Certificate Holder shall notify the Secretary in writing of that fact." This letter provides the required notification that on November 17, 2025, Niagara Mohawk Power Corporation d/b/a National Grid energized the 345 kilovolt Adirondack - Austin Road Line 13

Sincerely,

BOND, SCHOENECK & KING, PLLC
